Chicklit

Clara Álbori

What would happen if what you have dreamed about since you were a child comes true when you least expect it?

Synopsis

Nerea, an insecure woman who doesn't trust men. Hugo, a womanizer who has never been in love. Three real mischief-makers friends and two great matchmakers in their fifties. What are you waiting for to find out more about them?

Since Nerea was a child, her father told her the same tale: one day when she grew up someone would wake her up with a kiss of love, as if she were Sleeping Beauty herself. But these things happen when one least expects it.

Nerea has been unlucky in love. Her lifelong boyfriend turned out to be a liar, which makes her distrust all men. Therefore, to forget, she decides to travel with her friends to Gandía at the Villa Magic Hotel, whose manager is her own father and where she has spent the summer since she was a child.

For three months, they can enjoy the beach, the summer and their friendship. And perhaps, a new love.

Biography

Clara Álbori was born on June 22, on a warm day, in Logroño. Since she was a child she liked the tales and stories she read in books, but it was when she was thirteen that she found out that her passion was romance literature. She started to read teen romance books and she gradually discovered other subgenres within it. But her eagerness for writing appeared one day when she entered a story competition and won. With this competition she realized that she had several stories flowing in her head, and she confirmed this the day she put pen to paper and began this novel of which she is proud. She studies Teacher Training for Infant Education at the University of La Rioja.

Sales pitch

- Nerea, the novel's protagonist, is a modern "Sleeping Beauty" who expects a true love's kiss from her Prince Charming, as in the classic work of Perrault and The Brothers Grimm. *Wake Me Up With a Kiss* is a romantic story full with humor and freshness, set in a hotel on the Spanish coast.

- An ensemble novel that fulfills all the requirements of the genre: love, wit, freshness, complicity between the characters as well as complex themes with a more social significance: drug addiction and terminal illnesses.

- The novel has a flowing style with very fluent reading. The author has used an omniscient narrator in third person, thus she ensures that the reader has a thorough knowledge of all the characters and he or she can choose which one he or she feels more identified with.

- This novel is in line with other similar works of the chick lit genre such as the novels of Olivia Ardey, Elisabet Benavent or Blue Jeans, with the difference that in *Wake Me Up With a Kiss* the main characters are closer to reality: they are not stereotypes of a young girl and rich man; the environment in which the novel is set is ordinary, it is not an idyllic and unreal setting but a hotel in the coast of Gandía.

- Clara Álbori, very well-known in the blogosphere, is the breakout author who will become a great hope for the genre, since she is a writer capable of creating the characters' psychology skillfully and reproducing to perfection comic, dramatic or deeply romantic situations, without compromising the narrative, flowing style and rhythm.
